

ARE YOUR CHILDREN SAFE?

CHILD ABUSE PREVENTION MONTH WORKSHOP SERIES

National Child Abuse Prevention Month recognizes the importance of communities working together to help families thrive and prevent child maltreatment. The Children's Assessment Center (The CAC) will provide a series of virtual information sessions addressing how to keep your children safe and prevent child abuse. Child sexual abuse is an adult issue and it our responsibility as adults to protect children from abuse. During the month of April and throughout the year, The CAC encourages all adults to raise awareness and work together to address and prevent child abuse. To end child sexual abuse, we must first understand how to prevent it.
